

Our Link Worker

The link worker will enable patients to get access to the support they need when they need it. The support provided by the link worker could include developing skills to take responsibility for their wellbeing, meeting people and getting involved in the activities they enjoy or enabling them to access services to deal with day-to-day issues like housing, employment, benefits and debt.

The five ways to wellbeing were researched and developed by the New Economics Foundation.

- Connect
- Give
- Take Notice
- Keep Learning
- Be Active

Social Prescribing

A helping hand for better
health and wellbeing

What is Social Prescribing?

The Social Prescribing team work closely with GP practices to support their patients with their non-medical needs. Social Prescribing can help with:

- Lifestyle
- Looking after yourself
- Managing symptoms
- Work, volunteering and other activities
- Money
- Where you live
- Family and friends
- Feeling positive

Feedback from our clients

I was very grateful for all the help and support the Link Worker offered me.

You have been helping me by listening to me and offering practical information and offering options. I feel very well supported through a difficult time.

The Link Worker was very kind and helpful and gave me some good information a light in dark times
